

After four years of preparation and debate the **GDPR** was finally approved by the EU Parliament on 14 April 2016. Enforcement date: 25 May 2018 - at which time those organizations in non-compliance may face heavy fines. The EU General Data Protection Regulation (GDPR) replaces the Data Protection Directive 95/46/EC and was designed to harmonize data privacy laws across Europe, to protect and empower all EU citizens data privacy and to reshape the way organizations across the region approach data privacy,

Your **Tape Management z OS** files are created for each LPAR to locate your business data on virtual or real IBM z OS cartridges. This data have a creation date, a usage profile, a block size, a block count, etc etc.... All this helps to know how your data is used.

Dataset Name	Volser	Volume Status	Dataset Expiration Date	Volume Location

For years our z OS clients have been using EATM to make **Capacity Planning** . You can use EATM in Manual or Automatic mode, but 98% of our customers prefer the automatic mode.

Now **EATM 2018** is able to analyze your z OS Tape Management files and tell you if an unanticipated event has been detected in the use of your data saved on virtual or real cartridges, **EATM 2018** is compatible with VTS IBM / VTS ORACLE and DLM DELL / EMC

Your **Data Protection Officer (DPO)** may receive an alert email about unscheduled use of your backed up data that contains customer data.
